AGRICULTURAL EXPERIENCE AND WORK

August 2021 to Present

CLINICAL TEACHER, RIPLEY HIGH SCHOOL

- Assisting and observing the agricultural advisor.
- Preparing lessons, power points, and other learning material.
- Experiencing livestock shows and other competitive events as an agricultural teacher.
- Training career development event teams, opening and closing ceremonies teams, and the 8th grade creed teams.
- Assisting with choosing potential speech topics and helping with writing and the memorization of speeches.
- Communicating with students about their learning styles in the classroom in order to be able to meet their needs within my lessons
- Helping students through difficult situations and encouraging them to keep moving forward
- Participating in community service as a chapter and planning future events to be a part of

Spring of 2021

PRE-CLINICAL TEACHING, CUSHING HIGH SCHOOL

- Developed lessons that line up with AFNR Standards
- Observed the agricultural instructor in a competitive environment while also administering the three circle model

- Observed the communication skills both teachers possessed to make a two teacher program run smoothly
- Observed how to communicate with parents and administrators
- Was exposed to different scenarios a teacher would be placed in
- Time management and organization skills when in a classroom and out.
- Observed appropriate teacher student interactions
- Observed modifications and accommodations implemented in lessons for students who would benefit from them

2014 to Present

CO-OWNER AND ENTREPRENEUR, SHORT GIRL FEEDERS

- Co-designer of the livestock feeders
- Tested products before offering them to consumers
- Listened to the feedback of consumers to ensure I was producing the best product
- Made deliveries to vendors in state and out of state
- Building strategic partnerships
- Marketer to potential and established vendors
- Assembly, labeling, and often packaging of products
- Critical thinking when presented with challenging situations

May 2019 to August 2021

VETERINARY TECHNICIAN, BRISTOW VETERINARY CLINIC

- Performed initial examination on patients and gathered necessary medical history
- Completed any desired diagnostic testing or additional services
- Assisted in preparing patients and equipment for surgical procedures
- Monitored hospitalized and post-surgical patients
- Administered medications and vaccinations via subcutaneous, intramuscular, and intravenous injections
- Educated clients on preventative and at-home treatments of patients
- Assisted by restraining patients for treatment and medical procedures
- Ensured hospital was disinfected in between examinations, surgical procedures, etc
