WORK EXPERIENCE

Cowboy / Warehouse Manager

Oklahoma State University : North Range
Cattle Unit & Foundation Seed Stocks

2020-2022

- Using Tractors, Forklifts, augers, and other miscellaneous equipment I clean, treat, harvest, and prepare wheat. This wheat is sold directly to farmers as seed wheat. I use transportation equipment such as semis to deliver and prepare orders for the customers. At the range I calculated feed ration requirements to fulfil needs. We worked with research students to maintain quality results
- Forklift operation
- Inventory system manager
- Shipping and Handling of packages ranging from 10lbs to 2500lbs
- Dealing with Grain in the thousands of bushels
- Handling of chemicals and pesticides
- Mixing and handling cattle feed

Parts Specialist

2018-2020

P&K Equipment Inc.

- Maintained parts system with current order and sales data
- Took inventory of stock and replenished with current merchandise from established vendors to maintain adequate supply levels for expected demand
- Improved operations by working with team members and customers to find workable solution's
- Created agendas and communication materials for team meetings
- Served in the parts and service department assisting today's farmers feed the world by assessing their situations and actively listening to problems to get them what is best for their specific needs in an efficient and timely manner
